

Data Flow Diagram

LegalEase – AI Legal Document Generator
LegalEase Inc. | Documentation Version 2.0

Dhanasri S. (Team Leader), Saranya E., Reshma R., Sandhiya S.

Main flow

- User → Streamlit Frontend → HTTP POST /generate
- FastAPI Backend → Pydantic Validation (DocumentRequest)
- GeminiDocumentGenerator → Gemini AI model
- Generated text → Sanitization → Preview / Edit
- Final text → TXT / DOCX / PDF download

Data handled

The application processes user-provided document details and AI-generated legal text. The Gemini API key is kept in environment configuration (.env) and is not published to source control.
