

Solution Requirements

LegalEase – AI Legal Document Generator
LegalEase Inc. | Documentation Version 2.0

Dhanasri S. (Team Leader), Saranya E., Reshma R., Sandhiya S.

Functional requirements

- Accept document type, parties, terms and effective date
- Validate the request with Pydantic
- Generate a structured legal document with Gemini
- Display a styled preview
- Allow inline editing
- Download as TXT, DOCX and PDF
- Return a clear error (HTTP 500) when generation fails

Non-functional requirements

- Simple, readable interface
- Modular, maintainable Python code
- Secure handling of the API key
- Application runs even when the optional logo is missing
- Reasonable error handling
