

Solution Architecture

LegalEase – AI Legal Document Generator
LegalEase Inc. | Documentation Version 2.0

Dhanasri S. (Team Leader), Saranya E., Reshma R., Sandhiya S.

Layers

- Presentation: Streamlit (frontend/app.py)
- Application: FastAPI routes (legalEaseAPI/main.py, routes.py)
- Service: Gemini integration (ai_core/gemini_generator.py)
- Utility: sanitize and export (frontend/utils.py)

Flow

Browser → Streamlit → FastAPI /generate → Pydantic → GeminiDocumentGenerator → Gemini
→ Sanitized text → Preview / Edit → TXT / DOCX / PDF

Design principle

Keep UI, API, AI logic and formatting utilities separated so the project is easy to maintain and demonstrate.
