

Project Executable Files

LegalEase – AI Legal Document Generator
LegalEase Inc. | Documentation Version 2.0

Dhanasri S. (Team Leader), Saranya E., Reshma R., Sandhiya S.

Included project files

The application package contains `ai_core/`, `frontend/`, `legalEaseAPI/`, `Image/`, `config.py`, `run.sh`, `requirements.txt` and `.env.example`.

Run

- `python -m venv venv` and activate it
- `pip install -r requirements.txt`
- Rename `.env.example` to `.env` and add `GEMINI_API_KEY`
- `uvicorn legalEaseAPI.main:app --reload`
- `streamlit run frontend/app.py`

Repository safety

The real `.env` file is excluded from the GitHub-ready structure.
